Because summer positions are not guaranteed and are limited, teaching assignments will be based on the criteria listed below, as applicable:

- TAs are expected to have previous teaching experience in the lab course being requested.*
- Graduate students of faculty in the department with organized summer courses (or like course rights) have priority over other students.
- Experienced TAs are given priority over those with less experience.
- TAs with better evaluation scores, along with the recommendation of their supervisors, are given priority over TAs with poorer evaluation scores.
- TAs must be present for the duration of the term in which they are being considered for hire. If the TA cannot commit to this requirement, then an offer may not be extended.
- If the preceding criteria have been met and lab positions remain available, then assignments will be made in the order in which they were received.
- A full summer assignment is one summer term. If all reasonable requests have been filled and openings remain, with College approval, two consecutive terms may be considered. Under no circumstances may a student teach two sections within a single term.

Note: Summer salaries will be paid at the Spring 2018 monthly rate of pay. Pay for one summer term is the equivalent of 1.5 months of regular pay for a 0.50 FTE position, or half this amount for a 0.25 FTE position.

*Exceptions will be made on an “as needed” basis.

SUMMER 2018 TA OPPORTUNITIES = TBD; dependent upon enrollment

8W1 – BIOL 1112 – Claudia.Gonzalez@unt.edu
    BIOL 1760 – Ipsita.Lahiri@unt.edu
    BIOL 3452 – Arland.Alberts@unt.edu
8W2 – BIOL 2312 – Anthony.Curran@unt.edu
    BIOL 3520 – „Lance,” Geoffrey.Brooks@unt.edu

5W1 – BIOC 3622 – „Lance,” Geoffrey.Brooks@unt.edu
    BIOL 1132 – Jaime.Slye@unt.edu
    BIOL 2042 – Roxana.Hughes@unt.edu
    BIOL 2311 – Anthony.Curran@unt.edu
    BIOL 4092 – Arland.Alberts@unt.edu
5W2 – BIOL 2312 – Anthony.Curran@unt.edu
    BIOL 3520 – „Lance,” Geoffrey.Brooks@unt.edu

Other sources of employment, all of which may be explored from UNT website:
- Eagle Careers (postings for all hourly positions, including RA)
- Upward Bound
- Upward Bound Math & Science

Students possessing Master’s degrees are encouraged to explore adjunct opportunities in area community colleges.

Note that proctor/grader spots are primarily reserved for GSAs. Other requests will be considered if openings remain, according to applicable criteria above, with preference given to those without summer assignments.
